

Tutorial on Making Paper Ready Quality Figures

Yanqing Zhang

Email: yz4hz@virginia.edu

Abstract- This tutorial presents some common practices to make figures we make publishable quality.

I. BELOW IS AN EXAMPLE FIGURE

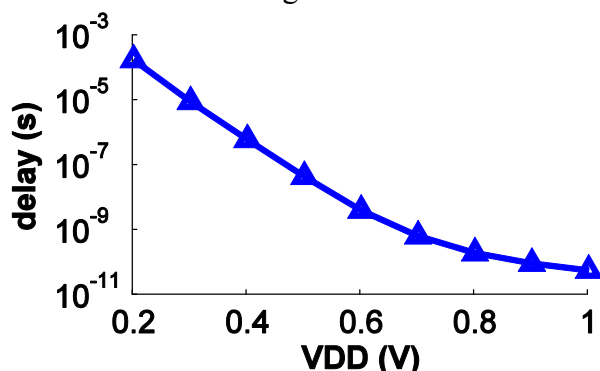

[illegible]

Fig 1. An example figure. Plot shows FO4 delay vs. VDD for a 130nm commercial technology.

[illegible]

It should look something like this. It should look something like this. It should look something like this. It should look something

like this. It should look something like this. It should look something like this. It should look something like this. It should look something like this. It should look something like this.

It should look something like this. It should look
look something like this. It should look
something like this. It should look something
like this. It should look something like this. It
should look something like this. It should look
something like this. It should look something
like this. It should look something like this.
